

Over 200 attendees are set to meet at the 1st annual Kansas Linux Fest for a weekend-long program of training, talks and workshops from the 21st to 22nd of March at the Lawrence Public Library in Lawrence, Kansas. The conferences is free and open to all people, being run by the non profit Free/Libre Open Source and Open Knowledge Association of Kansas and the Lawrence Linux User group.

The Kansas Linux Fest is a Yearly Festival of sharing Code and Knowledge for Kansas and the region. It is not just focused on Linux, but is a venue for the community to meet and share experience and knowledge.
